

DAILY MOOD MONITOR

How to use this tool

Each day, rate yourself on Mood, Vitality, Sleep, Interaction, and Focus using a scale from 1 (best) to 5 (worst). There are symbols for each level so you can rate your feelings on the scale.

Daily: Fill in one of the five numbers in each category.

Monthly: Draw a line connecting all the filled-in circles in each category to get an overall sense of the month. Then discuss the results with your healthcare provider.
